Sample Depiction of Mounting Procedures

Mounting Procedures:

Entry must be mounted on a single, black, medium weight 14" x 22" poster board, with no additional border or trim. Please do not use foam board. Only one entry per category unless otherwise stated in the rules. An oversized entry must be folded to fit on the board in a manner that allows viewing of the entire entry. The use of a paper or plastic sleeve or a pocket made of black poster board, securely mounted on the board, to hold the removable, folded entry is recommended. Entrants must not add fair logos, identifying marks, any type of explanation of the entered piece, or any other extraneous information on the face of the board. Only the item to be judged should be mounted. (At the discretion of the committee, improperly mounted entries may not be submitted for judging.) **VERY IMPORTANT: On the back of the board, identify your fair, division, and the category being entered.**
