

Move confidently into CONTACTLESS TICKETING WITH SAFFIRE

CONTACTLESS BOX OFFICE KIOSKS

Saffire can help you reopen and **increase safety, maximize revenue** and **reduce operating costs**. With SaffireTix, your box office can run itself. Transactions can be done 100% by the customer, making their experience safer and more streamlined. Here are just a few of the outstanding benefits:

HEALTH AND SAFETY OF YOUR STAFF AND CUSTOMERS

The most important part of reopening America is minimizing the potential for spreading coronavirus, and Saffire's Contactless solutions dramatically reduce the need for person-to-person contact.

REDUCED PERSONNEL COSTS

Self-serve box office tablet kiosks, and hands-free device stands are the most cost-effective solution to eliminating the need for workers doing in-person ticket selling, scanning and more!

SELL ANY TICKET, EVEN RESERVED SEATING

What's even better, is you can sell everything from this innovative box office, including reserved seats, without customers and staff ever having to touch!

SIMPLE TO CONVERT EXISTING BOX OFFICE WINDOWS

The plug-and-play setup of SaffireTix Box Office Kiosks is the easiest and most flexible way you can convert existing selling windows into powerful, self-serve ticketing stations!

blastpass

CONTACTLESS
PAYMENT
SYSTEM

RFID CONTACTLESS SELLING & SCANNING

BlastPass is a **contactless RFID** wristband or card that acts as an electronic wallet for your guests to make onsite purchases for food, alcohol and merchandise, **eliminating the person-to-person contact** of exchanging cash. BlastPass can also be used to grant guest access to specific entrances or designated general admission or VIP areas. Spotty internet access at your venue? No problem. BlastPass can even continue selling and scanning **without an active internet connection!**

ONLINE & MOBILE
TICKET PURCHASING

INCREASE ONLINE TICKET SALES, REDUCE CASH

Advance online purchasing means **less cash exchanging hands** at the box office with large groups of people and **more revenue in your pocket even before your scheduled events**. We help with advanced planning and early communication needed to shift your sales online. Our goal is aligned with yours: to **have as many guests as possible show up with tickets in-hand to limit physical contact**. Talk to our team about managing the costs related to contactless ticketing to stay in line with your budget!

VENUE TRACKING
& SOCIAL DISTANCING

SOCIAL DISTANCED RESERVED SEATING AND VENUE ATTENDANCE TRACKING

SaffireTix provides **self-manageable reserved seating maps** to help block off designated seats to help satisfy health and safety concerns associated with **COVID-19 social distancing policies**. Our software can also provide live attendance counts so you can **actively track attendance numbers** and know exactly how many people are in a specific location at any given time.
